OBJECTIVE

Full-Stack Web Developer with **2+ years** of experience in scalable web application development, specialising in backend systems. Passionate about optimizing web functionalities through efficient solutions, solving complex problems, and delivering exceptional user experiences.

EXPERIENCE

Backend Developer | Odvut Solution | Chittagong Hi-Tech Park, 4100 | February 25, 2024 - Present

- Developed and maintained the backend infrastructure for a fully functional e-commerce platform, comparable to Shopify, enabling vendors to create, manage, and customize their online stores.
- Collaborated closely with frontend developers to ensure seamless integration between frontend and backend components.
- Provided technical support and guidance to frontend developers when they encountered challenges.
- Implemented and optimized backend systems for performance, scalability, and security.

Team Leader - Web Development

- Led a team to develop a fully functional **digital voting website**.
- Designed and implemented core functionalities, ensuring project success.
- Managed development processes, task allocation, and troubleshooting.

ACHIEVEMENT

Achieved **2nd place** in an 8-hour hackathon with 20 teams from various universities. As the sole developer and youngest participant, I built a comprehensive web application for educational institutions, enabling user management, course scheduling, and student enrollment, showcasing strong problem-solving and coding skills.

EDUCATION

Bachelor of Science in Computer Science and Engineering (CSE)
Professional Honours –(Ongoing)
